FOREFRONT THERAPY

VISION

Lead healthcare, grow access, inspire community wellness, and thrive in our culture

MISSION

To be the leader of therapy and wellness services and provide the best standard of care, research, and education to a diverse community.

DIVERSITY, EQUITY & INCLUSION

Forefront Therapy takes pride in providing care across the entire community. We strive to partner with and employ diverse individuals and organizations who share our values and will join us in improving the lives of every member of our society. This principle is a key aspect to who we are and for what we stand.

THREE PILLARS

**ONE-ON-ONE
CARE**

**EDUCATION
AND RESEARCH**

**ACCESSIBILITY
FOR ALL**

LETTER FROM THE PRESIDENT

2021 was a year to remember on so many levels. So many individuals dealt with heavy side effects from the COVID-19 pandemic. In a year with so much challenge, we have worked relentlessly to pursue growth towards our mission. We have been blessed and awarded with promising success in the first year of Forefront Therapy-The Bronstein Clinic.

RYAN WOOD

Co-Founder, President, and CEO

We set a goal in late 2020, with a quality space in mind and years of planning and development, to open our Nonprofit branch of Forefront Therapy. In a time that saw delays in shipping and construction product production due to the pandemic (i.e. 6 month delay on window shipping), we were able to meet our deadline for a May 2021 clinic opening for Forefront Therapy-The Bronstein Clinic. We are proud to say that we used 100% local companies for the entire renovation of the 201 SE 4th St. space, conveniently located in the heart of Downtown Evansville.

This hard work and collaboration resulted in a 4,100 sq.ft. beautifully renovated space and a dedicated 14 space parking lot. The first floor has ample space for clinical success and the second floor is set up for a warm and fresh administrative atmosphere. Part of the vision of the space also included a successful renovation of the 1st floor roof to create an amazing 2nd floor terrace of which will be a staple of future team and fundraising events for the organization for years to come. Furnishing the space came with extensive challenges again from side effects of the pandemic as well as initial funding challenges. However, we were able to persevere and properly equip and furnish the clinic in time for the opening.

Our organization has been able to host educational events, participate in multiple local community events, host a Run/Walk 812 Health Fair fundraiser, collaborate with multiple organizations, multiple PDEvv Hub events and support, as well as continue to successfully grow clinical volume and success each and every month.

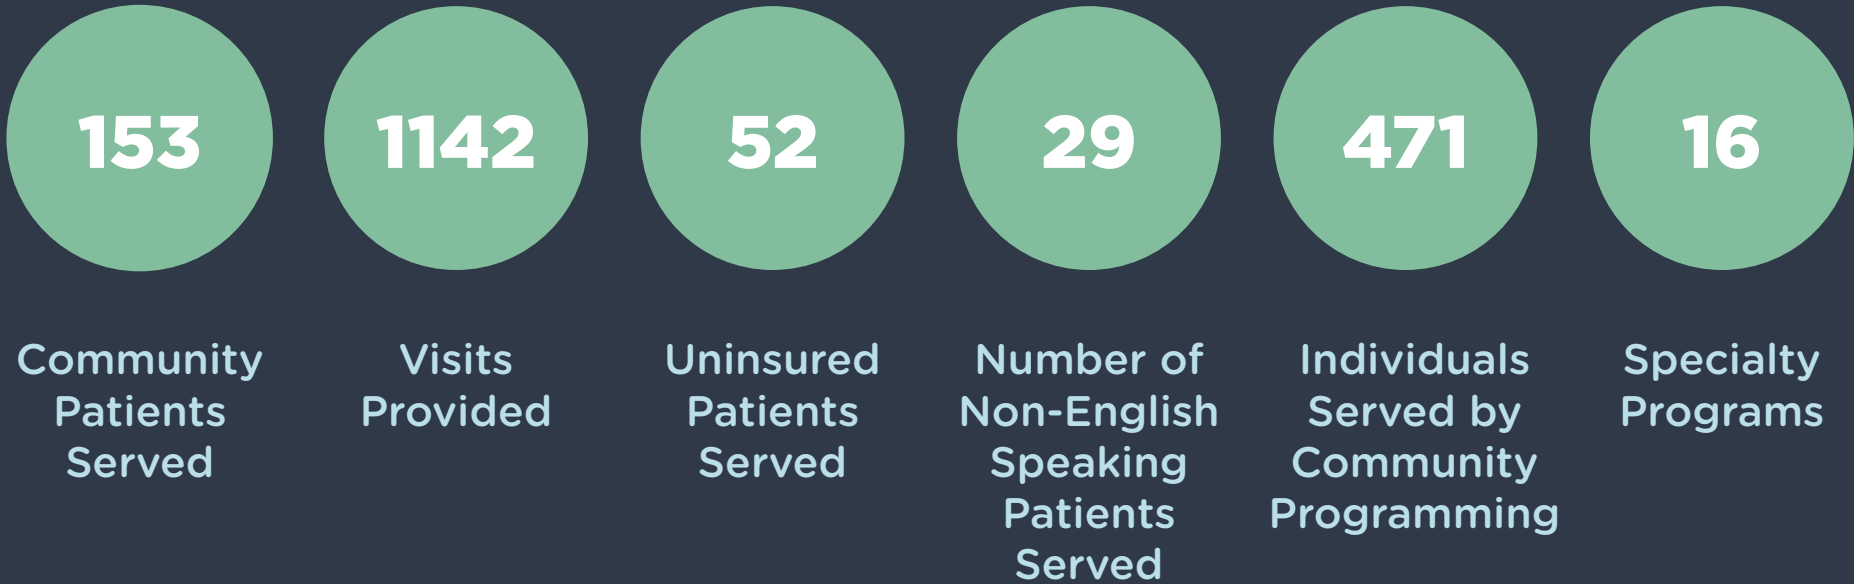

We have seen steady and successful monthly growth with patient volume, **being able to assist 153 individuals in 2021.**

It is our honor to recognize all of the members of the Forefront team, the Forefront Board of Directors, as well as the local organizations, foundations, and individuals who have supported us along the way.

CLINIC SPONSOR: **THE BRONSTEIN** **FOUNDATION**

Sol and Arlene Bronstein were philanthropists and entrepreneurs in the oil and gas industry. After moving to Evansville, Sol became immersed in volunteer and community work. Sol was active in the Washington Avenue Temple, Clearcrest Country Club, and Masonic Lodge. Arlene became the first woman elected to serve as a director at National City Bank and became the President of Evansville's Public Health Nursing Association. Faithful to their congregation and community, they supported their Temple as well as Jewish educational and welfare initiatives during their lifetime. Sol and Arlene each created a philanthropic foundation at their deaths, jointly named The Bronstein Foundation. With funds supported by the Bronstein Foundation, Forefront is honored to dedicate the clinic to continue the Bronstein's mission to serve the older adults in the healthcare community:

FOREFRONT THERAPY - THE BRONSTEIN CLINIC

WHAT LIES AHEAD

Looking forward, we will look to continue to grow and partner to bring improved health and wellness to the Tristate region. We will offer one on one services, group community health and wellness opportunities through exercise and educational experiences, drive educational opportunities both internally and externally, and initiate highly anticipated research in our specialty niche programming.

By utilizing our established relationships with organizations like ECHO, University of Southern Indiana, University of Evansville, and more, we will continue to meet our mission by bringing Accessibility for all in our fields.

2022

We are excited to announce the planning for multiple fundraising events that will look to leverage our geographical location in Downtown Evansville as well as our gorgeously renovated Bronstein Clinic. We can continue to solidify our organization's sustainability by creating recurring annual events. These events will look to highlight our community by bringing together some of the outstanding relationships and highlighting what a diverse and welcoming community the Tristate offers.

With so much momentum going into 2022, we cannot wait to see what the year holds and how many lives we are going to be able to help!
